Here's why

1. We run and maintain our ad servers and your ads are only served exclusively in this site
2. Unlike other ad networks like Google Adwords or Chitika and others your impressions and click-through budgets won't be wasted by clickbots because your ad is exclusive and there are no other affiliates.
3. Route66 is indexed better by popular search engines, therefore we are usually positioned higher in relevant search results than the competition.
4. We have the best and highest-quality content that connects to its intended audience.
5. We're the best deal in town. We generate the right leads for you. Bar none.
6. This is where your audience are quietly reading
